- **Easy to Use** intuitive interface, step-by-step help box, web chat
- **Flexible** instant access to Web account from anywhere you are
- **Fast Data Import/Export** significantly improved performance
- **Clear Calendar View** vehicle/driver activities in a clear and simple view
- **All software updates included** regular updates with new features/improvements, Web accounts updated automatically
- **Supports Direct Data Import** data can be sent directly into OPTAC3 via remote download technology

## EASY INTEGRATION

With today's use of remote download, data files can be sent directly into OPTAC3. The software can be quickly and easily integrated with almost any remote download system on the market. So now you can schedule your downloads and send your Driver and VU data files directly into OPTAC3 saving significant time on data import and enhancing your driver and vehicle utilisation.

OPTAC3 can also be integrated with a variety of third party systems, such as salary systems, planning systems and vehicle maintenance systems. This will allow you to import tachograph data from OPTAC3 and produce customised reports, keeping all your data in one system and making it easier for you to do your job.

## GET IN TOUCH TODAY

Still unsure? Why not try our completely free of charge trial for up to 30 days? No obligation, no payment details, just fill in the online form or call our sales team who will register you on our website.

Four decades of design and manufacturing, coupled with our insight and experience allows us to ensure customers receive exactly what they want: highly reliable and robust products, backed up by a professional after-sales service.

## TACHOGRAPH ANALYSIS

## WHAT CAN OPTAC3 DO FOR YOU?

## KEEP YOUR DRIVERS LEGAL

OPTAC3 is the end-to-end Tachograph Analysis system brought to you by Stoneridge. It is designed with efficiency in mind, saving your business valuable time and money and keeping your working days hassle free. Understanding and implementing EU Drivers' Hours Legislation has never been easy, but OPTAC3 takes the worry out of complying with it.

The main aim of the OPTAC3 Tachograph Analysis is to keep your drivers legal and compliant with the Drivers' Hours Legislation and the Working Time Directive. It automatically checks the tachograph data against legislation and displays summaries and infringements in a clear, easy to understand format.

Even the best drivers sometimes have infringements and the authorities will expect you to manage how your drivers are performing. With 38 different Driver & Vehicle Reports this could never be easier. Better managed drivers will also give your fleet more time on the road and save you costs every day by simply doing their job better.

## UNLIMITED DOWNLOADS FOR ONLY £1 PER DRIVER PER WEEK

With OPTAC3 Web-based Tachograph Analysis you can download your data as often as you like. You will only be charged for drivers, just £1 per driver, per week. Digital vehicles and analogue charts are free to download. With the OPTAC3 tachograph analysis solution it doesn't cost the earth to stay compliant.

## DIRECT TO YOUR INBOX: EASY REPORTING

Tachograph data analysis can be a time-consuming and tiring process. Does it take too much of your time? Subscribe to our additional OPTAC3 Plus\* reporting service and save significant time and cost on your tachograph analysis.

Drivers' data is securely uploaded to our servers and reports are automatically generated and sent to you on a monthly basis. These flag up any anomalies so you can immediately spot infringements.

We deliver several reports including Infringement Reports for each driver, a summary of driver activity, download reminders and lots more.

\* OPTAC3 Plus is an additional service, please see [www.optac.info](http://www.optac.info) for pricing details and a full list of reports.

## WHAT REPORTS DOES OPTAC3 PRODUCE?

### Driver Letter

allows you to alert your drivers to any infringements they have and by having them sign the report you have evidence that they were informed of the infringement

### Driver Utilisation

get the most out of each driver by keeping track of how they spend their time, whether on Driving, Other Work, POA or resting

### Vehicle Utilisation

helps you verify that you are getting the most effective use of your fleet by understanding in detail how each vehicle is used

### Card & VU Download Reminder

uses a "Traffic Light" system to show you when a card or tachograph is coming up for downloading, and which are already late

### WTD Weekly Averages

shows you the number of hours a driver has worked each week in a given reference period, allowing you to manage your resources more efficiently

### Daily Details Graphical Report

gives a detailed break-down of a driver's activities for a calendar day, giving you more choice on how to view your data

This is just a sample of the 40+ different reports generated by OPTAC3. A complete Sample Report Guide is available upon request or on [www.optac.info](http://www.optac.info).
