

# HDT Announces Top 20 Products for 2020

Published by HDT on February 14, 2020 by HDT Staff

The 2020 Top 20 Products award highlights the most innovative, significant, and useful new product announcements from last year.

Heavy Duty Trucking magazine has announced its 2020 Top 20 Products, highlighting the most innovative, significant, and useful new product announcements from last year.

The winners are published in the February issue. Awards will be presented during individual ceremonies at the American Trucking Associations' Technology & Maintenance Council annual meeting at the Georgia World Congress Center in Atlanta Feb. 24-27.

HDT's Top 20 Products are chosen by Heavy Duty Trucking's editorial team with input from the HDT Editorial Advisory Board.

Products are evaluated in three areas:

- Innovation
- Ability to address important industry issues
- Potential to improve a fleet's bottom line

To be considered, a new product must have been reported on by HDT's editors, either online or in print, over the past year. For 2020, products that were published online between November 2018 through Nov. 15, 2019, were eligible. HDT's editors confer to choose a group of finalists, which are then sent to the HDT Editorial Advisory board to score in the three evaluation areas. Those scores are used to narrow the list down to the final 20. (In case of a tie, more than 20 products may be honored.)

Products must be commercially available or scheduled to become so within the year, so “concept” products are not eligible. Entire powered vehicles are excluded. Each company may only receive one award per year, so for manufacturers with multiple eligible product announcements, the top scoring one will be honored.

This year, due to some ties in scoring, there are 22 award-winning products. The resulting Top 20 products are listed in alphabetical order by company name:

- Allison Transmission Regional Haul Series
- Ancra Cargo AutoDeck
- Aperia Technologies Halo Connect
- Bendix Spicer Foundation Brake LLC Bendix Pad Wear Sensing ADB22X Air Disc Brakes
- Chevron Delo 600 ADF
- ConMet PreSet Plus SmartHub
